Workshops by David Parmenter, Waymark Solutions, New Zealand

To Whom it May Concern

David has delivered a number of workshops for OmniPro over the last twelve months and I have also worked with David on a number of workshops in a previous role with one of the main accountancy bodies in Ireland.

We identified David's areas of expertise as key topics that we should include in our professional development programme. Our clients (qualified accountants) were very satisfied with the workshops. Excellent feedback was received from Practising Accountants and Industry Accountants, with over 90% of delegates signaling an "excellent" score on our formal feedback sheets.

David is a speaker who is very easy to work with. From diary planning to workshop preparation, execution and follow up, David is very professional and pro-active in his approach. He provides his material to us in a very timely and organised manner. This material is well received by our clients. David is committed to sharing best practice and practical examples with delegates, and this is reflected in the quality of the comprehensive white papers he provides.

David manages the logistics of getting to our events superbly and that really helps us, from our side. It means that we can focus on marketing and not worry too much about getting him there! His assistance with marketing material makes it easy for us to roll out advance communications that will generate interest in his workshops.

In essence, he makes things very easy for us and we find it a pleasure to deal with him. By working with Waymark Solutions, it means that we can bring high quality, performance management workshops to our clients and broaden our programme of workshops.

If you require any further information, I will be very happy to assist you.

I can be contacted by email at osweeney@omnipro.ie or mobile at +353 87 227 8202.
